

Training of z-axis Operators

Current z-axis Experts on New Deployment System

Andrew Franck, Fred Gray, Bruce Berger, Karsten Heeger
(Lindley Winslow)

Started Training at LBNL

Kengo Nakamura (RCNS), Tim Classen (UA)

Continued Training during commissioning process. Extensive z-axis runs prior to off-axis deployment for system testing and calibration.
→ Numerous opportunities for training.

Z-axis Operators

After commissioning I expect we will have the following set of z-axis operators

Andrew Franck (*will leave LBNL after installation*)

Fred Gray

Lindley Winslow

Bruce Berger

Karsten Heeger

Kengo Nakamura

Tim Classes

+ expected training during commissioning process.

new UA postdoc

RCNS students?

Z-axis Experts

Current z-axis system experts

Andrew Franck - mechanical, electrical *will leave LBNL in July*
Fred Gray - software
Lindley Winslow - instrumentation
Bruce Berger - operation
Karsten Heeger - overall

On-site calibration experts

Kengo Nakamura
Tim Classes

- Will need more documentation for system.
- Would like to familiarize more people with software and instrumentation.
